

SOCKET FLEX FOR DRAWER

Item number: 321002

The Noro Flex white electrical socket is easy to install on the back of the cabinet drawer. The socket comes with a pre-installed plug and 60 cm cord that connects to a grounded 230V socket on the wall behind.

This practical electrical socket makes it easy to connect items such as electric toothbrushes or hair dryers inside the cabinet. The socket can also be disconnected if necessary – perfect for cleaning or if the drawer needs to be removed, for example when cleaning the water trap.
